## Lyceum.

The managers having witnessed with pleasure the increasing interest taken by the citizens in this institution, have made every effort in their power to procure a place for the lecture, which will accommodate all who wish to attend, but they have not been able to make arrangements for any place, which in their opinion will permit seats for a greater number than the City Hall. The Hall properly fitted with seats will furnish accommodation for six hundred persons, which is a great number, probably as will permanently attend the lectures. The number to be admitted by one ticket must be limited to one gentleman and one, or at most two ladies. The door keeper has received positive orders to admit no person without a ticket shown at the door at each time of going in, except strangers, visiting the city who must be introduced by some of the officers of the society, or by one of the managers, which will be done on the application of the parties or their friends. If these regulations are observed, and persons taking seats are careful to economize as to room, there will be no want of room, for all who have any just claim to the privilege of a seat. The managers trust that the holders of tickets will readily comply with these regulations, and will not permit the privilege of attendance secured by their tickets to be abused in such a manner as to deprive any person of their just rights. If this arrangement shall not be satisfactory to the holders of tickets the managers on application made to them, will call a meeting of the Lyceum and submit the matter to the society, to take such order about it as they see fit. Owing to the impossibility of making any adequate and seasonable arrangements to accommodate the audience, the lecture by Mr. Castanis, which was to have been delivered on Friday evening 10th of Nov. was postponed. He will deliver one or more lectures before the Lyceum of which public notice will be given.

J. B. HILL, by order of the Managers.  
Nov. 11th, 1843

## Departure of the Ship Paragon—The capacity of our River.

Captain Howard, of the firm of Howard & Jenkins, informs us that the ship Paragon, Capt. Curtis, left Steam Boat wharf in this city on Saturday, in tow of Steamer Jefferson, drawing eighteen feet of water. The bar, above High Head, which frightened the Steam Ship Missouri from visiting Bangor, was sounded before the ship sailed, and there was found to be twenty feet of water. The tides now, are only of ordinary height.

The owners of large ships, carrying lumber to South America, will find that in Bangor they can procure the best article for that market, the price most satisfactory, the accommodations ample, and the navigation safe, with water enough to float their "biggest ships." We should like very well to see in our harbor a sample of the fine ships owned in the several ports of New England, and we know that our lumber merchants can suit them to any variety or amount of pine lumber the owners may need.

We have received a communication through the Post Office, and without the name of the writer, setting forth certain complaints against a portion of the fire department and against the action of the city council in regard to another portion of that department. The article contains charges of wrong doing that may or may not be true. If they are true we think they may be remedied in a better way than by a newspaper controversy—if untrue they ought not to appear. The writer may be correct, but we do not know who the writer is and the whole matter may be an imposition. We shall not publish the communication until we have a responsible name to back up the charges, nor then unless we think the publication may do good.

The writer says, that if there is any hesitation on our part about publishing the article, the Gazette will publish it. This does not alarm us. If the Gazette is already committed to publish it, the editor probably knows the writer or is acquainted with the facts. If so and he is willing to take the responsibility he may do so in welcome. We have no disposition to snap at an article, merely because the Gazette will publish, if we think it inexpedient.

## Manufactures.

According to the Madisonian, the New England States have invested in manufacturing establishments, eighty-six millions eight hundred and seventy-four thousand two hundred and twenty-nine dollars—\$86,874,229. Of this, they have invested in cotton manufactures thirty-four millions nine hundred and thirty-one thousand three hundred and ninety-nine dollars—\$34,931,399. They have employed in these cotton manufactures, forty-six thousand eight hundred and thirty-four of their people—46,834.

## SUPREME JUDICIAL COURT.

In the case of *Hiram Coffin*, reported in our Saturday's paper, the jury were unable to agree upon a verdict and were discharged.

William Sutcliffe was then tried on indictment for a felonious assault, with intent to kill, one George W. Ellis, of Charleston. The jury had not agreed when the court adjourned on Saturday evening. They will report this morning. Hatch for prisoner.

Opinions were read in the following cases pending in this County, viz:

Amos M. Roberts vs. Benjamin Bourne—Judgment for Plaintiff

Samuel Veazie et al. vs. Rufus P. Parker—Judgment for defendant.

John Pearson et al. vs. Stephen S. Crosby and John Barker, Trustee—Trustee charged.

In this case the assignment made by the principal defendant to the trustee for the benefit of his creditors, was declared void, for the reason that it contained a condition for creditors to release their respective debts against the assignee.

Benjamin Shaw in Equity vs. Lendall M. Gray et al.—Bill dismissed.

Stephen G. Lovejoy vs. Charles Hutchings—Judgment on verdict.

## Dissensions in the Cabinet.

The rumors of dissensions in the Cabinet at Washington, says the Journal of Commerce, appear to be well founded. All accounts agree that Mr. Upshur coincided with the President, while all the other members of the Cabinet dissented. Precisely what was the subject of difference, is not so clearly ascertained.

One gentleman who is likely to be well informed, thinks it was the question of further extensive removals of the Whigs from office; and that the President and Mr. Upshur opposed the measure. Another gentleman, whose opportunities of information are equally good, it not better, is confident that the discussion arose upon the question of introducing prominently into the forth-coming President's Message a recommendation to admit Texas into the Union.

We are inclined to think the latter view of the subject is correct. Of course we cannot undertake to say precisely what were the points of disagreement in the case, but that they related to the Texan question, in connexion perhaps with the overtures of England for the abolition of slavery in that Republic, is more than probable.

There was an immense meeting of the Whigs of Essex and the neighboring counties in Massachusetts at Andover, on the ninth inst. The number present is estimated at between five and six thousand.

This multitude was addressed, for the space of more than two hours by Daniel Webster. By invitation of the Committee of arrangements, Mr. Webster spoke upon the subject of the duty of the Government to furnish a currency—to afford protection to manufactures—to distribute the proceeds of the public lands. He referred to his own position and repeatedly declared himself a whig; a Fanuel Hall whig! He was greeted with enthusiastic cheers. Between two and three thousand persons partook of a collation prepared in an elegant tent prepared for the purpose.

To day the election for State officers takes place in Massachusetts and we wish her a successful deliverance from the power of locofocism. We want to see the Old Bay State herself again.

## Vessel Missing.

The Wiscasset Republican states that the BARK ZAIDA Cunningham master, belonging to Messrs H. & F. Clark & Co. of Wiscasset, sailed from that Port the 19th of Sept. with a cargo of Sugar Shooks for Havana, and has never been heard of since. Fears are entertained, that she was lost in that great hurricane that swept the coast of Florida with such destruction.

We understand the vessel (which was but a few years old and coppered) was insured with her cargo; but the loss of the worthy commander and several valued citizens will be severely felt, as scarcely a ray of hope is left of their safety, to cheer the widow and friends they have left.

## New York Election.

There does not seem to be anything very interesting from this state by the last mail. If we find by looking over our papers again that the whigs have carried the State, or, have made an aggregate gain in the Senate, or the House, we will issue an extra this afternoon.

The Sch. United States, of Mt. Desert, sailed from New York, Sept. 25, with a deck load of stock for St. George, Bermuda, and has not since been heard from. She is supposed to have capsized off Bermuda during a violent gale, Oct. 3. Her crew consisted of Benjamin S. Moore, captain, and five or six seamen, two of whom were blacks, belonging to Bermuda.

The Baltimore Patriot of Tuesday evening says:—"There are reports in the city that there was a flare up in the Cabinet yesterday at Washington which ended in a breach among all the members except Mr. Tyler and Mr. Upshur."

The Wiscasset Republican states that the friends of Mrs. Hewes (not Hughes) widow of Capt. George H. Hewes, whose case was recently mentioned in our paper, will present her claim to the Mexican government. The widow is said to be a pious, worthy woman.

Lord Falkland has dissolved the Legislative Council of Nova Scotia. The writ for calling a new General Assembly bear date 30th ultimo, returnable on Thursday, the 11th day of January next.

Extract from a letter from Zante, Sept. 20: England, France and Russia are agreed on procuring the abdication of King Otto, and of then placing on the throne of Greece his Royal Highness Prince George of Cambridge, born 28th March, 1819; the object of this Prince in coming to the Ionian Islands with the title of Commander of the Troops, is to be in the neighborhood of Greece, and thus in due time to be within a short distance of his kingdom, which will be increased by the cession of Thessaly and part of the empire to the Gulf of Vassily, with the Ionian Islands (Crotia excepted) and the Island of Candia; in which case the debt of 60,000,000 of francs due to the three Powers will be remitted. The Prince will marry the second daughter of the Emperor Nicholas, named Olga, (Helen,) born the 30th of August, 1822. To France, then, will be given (with the consent of the other two powers) the absolute dominion of Algiers and the Regency of Tunis, over which countries will reign one of the sons of Louis Philippe. Finally, to Russia will be granted Moldavia and Wallachia, with the Duke of Leuchtenburg, son-in-law of the Emperor Nicholas, as King. Thus in a short time, all jealousy and political animosity will cease!

The Arkansas Intelligencer of the 14th ult. says:—"The Texan Commissioners have met the Comanche and other Indians, at their council upon Red river. A friendly feeling exists among all parties, and amicable negotiations are in progress. Next week we shall hear the result. The Chistaws and Chickasaws are sitting in National Council at Kiamichee. The Cherokee National Council is in session at Talequah. The Creek National Council has adjourned. The crops have been good throughout the Indian country."

At Andover, Thursday last, just before the 4 o'clock train started on its return to Boston, George Gay, Esq., of Ward 9, in this city, was found dead in one of the cars. The body was taken to a neighboring house, and every effort made to restore life, without avail. It was supposed that he died of apoplexy. Mr. Gay was of the firm of Gay & Sumner, counsellors at law, and was much respected by the profession and his friends.—Boston Adv.

We understand that the Schooner Globe, supposed to have been the schooner that sunk in sight of Agamenticus is safe in our river.

The following is the transcendental for "Miss, will you take my arm?"

"Young lady will you condescend so far to sacrifice your own convenience to my pleasure, as to insert the five digitals and part of the extremity of your contiguous arm through the angular aperture formed by the crooking of my elbow against the perpendicular portion of my frame?"

THE PICTORIAL BIBLE, being the Old and New Testaments according to the authorized version illustrated with more than One Thousand Engravings. Boston: Saxton & Peirce.

We have received the tenth number of this splendid Bible from Mr. E. F. Duren. We have in this publication the text of the Word of God, in a large, clear, and beautiful type with suitable and numerous illustrations of historical events, landscape scenes, subjects of natural history, of costume and of antiquity. This is an edition of the sacred word to be prized; and we cannot but think that when the whole is completed and bound, and when old age shall sprinkle its frosts upon us, we may be seated in the old arm chair, and in the quiet of home adjust our spectacles and study with increased delight the holy page and discover beneath the external word the internal signification, and thus gather fresh power to the soul, and ripen for heaven.

That this edition of the Bible is passing through the press in the popular form of numbers must be highly satisfactory to all who revere the revealed word. The manner of its execution reflects the highest credit upon the typographical art in this country, and the enterprise is one that deserves encouragement.

ALISON'S HISTORY OF EUROPE, No. 16 Harper's Edition.

Messrs Smith & Fenno have laid upon our table the sixteenth, and concluding number of Alison's History of Europe, from 1789 to 1815, one of the most attractive histories of that period that has ever been written.

The whole work may now be obtained of Messrs. Smith & Fenno, at the subscription price of \$4.00.

The New York Express says that the Packet ships are carrying out wooden ware to London. The London and Liverpool packets continue to go out full—new articles all the while coming into the market, which are taken out as a speculation, and which generally are successful. The last "new notions" taken out are wooden clothes pins, wooden bowls, spoons, churns, rocking chairs, &c., of which several tons measurement were on board the Victoria for London. Her freight list amounted to about \$10,000. [New Haven Chronicle.]

## Shipwreck and Suffering—Inhabiting a Solitary Island—Loss of Life.

The following intensely interesting account was recently published in the New Bedford Mercury:

"The ship Parker, of New Bedford, Captain Prince Sherman, sailed August 26, 1839, bound for the Pacific ocean, to obtain a cargo of sperm oil. The vessel was cast away on Ocean Island, 23d Sept. 1842, a total wreck. The following hands were lost:—H. Kelly, 1st mate, S. Dartmouth, Mass.; William Sutton, seaman, Boston, Mass.; Antonio, seaman, Payta, Peru; John Linter, seaman, Dorsetshire, England. The survivors made a raft, which floated on a level with the surface of the water; and after eight days and seven nights of incessant labor and intense suffering from hunger and thirst, they succeeded in reaching the island. When they landed, their condition was most pitiable. Nearly the entire distance from where the raft was made, to the island, they were obliged, on account of currents, to warp, by repeated swimming with a line, and making fast to the bottom. Having reached the island, they were actively engaged in making necessary preparations for a residence until some friendly vessel should take them off. They found some remains of the wrecked Gledstanes, which served for fire-wood and building

materials. One solitary dog was the only representative of civilized life which had been left by the crew of the Gledstanes. He had lost his domestic habits, and after some weeks was caught. Being in good condition, his flesh afforded some variety to a constant diet upon sea fowls and seals. It was estimated that they killed rising of 7000 sea fowls, and about 60 seals. From the old wreck of the Parker they obtained some pieces of copper which were manufactured into cooking utensils. They sent off 120 sea fowls, with tailed pieces of wood attached to them, hoping some one would be caught, which would in hieroglyphic language relate the situation of the crew of the Parker. Thus month after month passed away. Every morning and evening the captain was accustomed in his tent to conduct religious services, and on the Sabbath morning a bell flung was hoisted, when all the inhabitants of Ocean Island assembled for worship.

After more than six months had thus been spent, April 16th the man on the "look-out" discovered a sail making for the island. They made signals which were seen on board the vessel, but owing to the lightness of the wind she was carried to the south of the island. On the following morning, April 17th, she was again discovered standing for the island. About 10 A. M. their situation became known on board the vessel, which proved to be the James Stewart, St. John, N. B. The Captain received on board Capt. Smith, the carpenter, the cooper and cabin boy. Twenty were left upon the island, who were generously supplied with 2 lbs. of bread and 20 lbs. beef each, besides 1 lb. of salt, and cotton cloth sufficient for each one a shirt, and numerous minor articles of essential benefit.

The captain of the James Stewart pledged his word that at the end of the cruise he would return for them. On the 2d of May a second sail was discovered, which proved to be the whaler Nassau, New Bedford, Capt. Weeks. On learning their situation, he immediately ordered his boats ashore to bring off every person. He supplied them with clothing and provisions in abundance. Every accommodation which the Nassau could afford, was placed at their disposal. Seven of the number enlisted on board the Nassau to perform the voyage while the remainder were left at Honolulu, Sandwich Islands; under the protection of the American Consulate. The conduct of Capt. Weeks was such as to excite feelings of heartfelt gratitude in the bosoms of those who experienced his kindness. The editor of the Honolulu Advocate has been particularly requested in a public manner to express their thanks to him.

**SANDS' SARSAPARILLA.**  
FOR THE REMOVAL AND PERMANENT  
CURE OF ALL DISEASES ARISING  
FROM AN IMPURE STATE OF  
THE BLOOD, OR HABIT  
OF THE SYSTEM.

Scrofula, or King's Evil, rheumatism,  
obstinate cutaneous eruptions, pim-  
ples, or pustules on the face, blotches,  
bites, chronic sore eyes, ring worm,  
or tetter, scald head, enlargement  
and pain of the bones and joints, stub-  
born ulcers, syphilitic symptoms,  
sciatica, or lumbago, and diseases  
arising from an injudicious use of the  
mercury, ascites, or dropsy, expo-  
sure or imprudence in life. Also,  
chronic constitutional disorders will  
be removed by this preparation.

The proprietors submit to the public the follow-  
ing certificate, from a highly respectable source, of  
a cure made by using their preparation of Sarsapa-  
rilla, which cannot but have the effect of placing  
beyond all doubt the curative powers of the medi-  
cine.

New York, August 3, 1812.  
Messrs. Sands—Gentlemen: Under a feeling  
sense of gratitude inherent to us all when suddenly  
relieved from suffering and disease, I now, as an act  
of justice due to you, and with a view of relieving  
the afflicted, make known to the world the inesti-  
mable benefit I have received from the use of your  
Sarsaparilla. In the year 1832 I sailed from Eng-  
land in a vessel bound for Quebec, and while on the  
passage first discovered the disease which after  
proved to be a sore affliction; and truly I can say,  
"from the crown of my head to the sole of my foot  
there was no soundness in me." From the time first  
mentioned down until the present, a period of more  
than ten years, I have suffered all that human na-  
ture was capable of bearing. I have been under  
the care of the most distinguished physicians both  
in this country and in England, visited Bath, Chel-  
tenham, Bristol and Gloucester, tried various spe-  
cifics, among others a large quantity of Swain's  
Panacea, used sulphur baths, &c. As last resort  
I was induced to wrap myself in a tar ointment,  
keep myself secluded, shunned by all, myself also  
shunning. I was induced to believe my case a  
hopeless one.

In August last, by the advice of friends, I went  
to the New York City Hospital, but was there told  
that my case was incurable. The disease now en-  
veloped my whole body, rendering me almost help-  
less; the skin thickened and cracked, and blood and  
matter ran, and life itself became almost a burden.  
A few weeks since I was induced to use your Sarsapa-  
rilla by hearing it so highly recommended, having  
spent nearly \$3,000 without obtaining but little  
relief. After using it a short time, I found myself  
better, and now, by using six or eight bottles, cost-  
ing me less than ten dollars, I am well. Yes, I cer-  
tainly declare to the world, that after spending  
near \$3,000 in traveling and doctoring, and suffering  
more than can be told, I was perfectly cured  
by using your invaluable preparation of Sarsapa-  
rilla; and I now recommend it to all similarly afflicted.  
Those wishing to know further particulars will find  
me at my residence, No. 27 Warren street, New  
York, where I shall be happy to communicate any  
thing in relation to the above cure.

PAUL BURDOCK, Dr.  
Prepared and sold by A. B. SANDS & CO. Druggists  
and Chemists, Granite Buildings, 273 Broad-  
way, corner of Chambers street, New York. And  
for sale by Druggists throughout the United States.  
Price \$1 per bottle, six bottles for \$5.

The public are respectfully requested to remem-  
ber that it is Sands' Sarsaparilla that has and is  
constantly achieving such remarkable cures of the  
most difficult class of diseases to which the human  
frame is subject, and ask for Sands' Sarsaparilla,  
and take no other.

**Dr. D. Jayne's**  
**FAMILY MEDICINES.**

**JAYNE'S EXPECTORANT.**

THIS invaluable medicine is daily effecting cures of  
the most astonishing and wonderful cures that have  
ever been known. All who have used it for Asthma,  
Coughs, Spitting of Blood, Whooping Cough, Croup of  
Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain  
and Soreness of the Throat, Difficulty of Breathing, and  
every other disease of the LUNGS and BREAST, can  
and do attest to its usefulness. BRONCHITIS, a dis-  
ease which is annually sweeping thousands upon thou-  
sands from our prime of life, under the mistaken name of  
CONSUMPTION, is always cured by it. The usual  
symptoms of this disease, Cough, Hoarseness, Difficulty  
of Breathing, Asthma, Hectic Fever, a Spitting up  
of Phlegm or Matter, and sometimes Blood. It is an in-  
flammation of the fine skin which lines the inside of the  
whole of the wind tubes or air vessels, which run through  
every part of the lungs. The Expectorant immedi-  
ately suppresses the Cough, Pain, inflammation, Fever and  
Difficulty of Breathing, and produces a free and easy  
expectoration, and a cure is soon effected.

It cures also ASTHMA. Two or three large doses  
will cure the CROUP, or HIVES of children, in from 15  
minutes to an hour's time. It immediately subdues the  
violence of WHOOPING COUGH, and effects a speedy  
cure. Hundreds who have been given up by their phy-  
sicians as incurable with CONSUMPTION, have been  
restored to perfect health by it.

The Expectorant is given in the commencement of  
PLEURISY, INFLAMMATION OF THE LUNGS, or  
in acute RHEUMATISM, in doses sufficiently large, so  
as to cause a little nausea for some time, going to bed  
and covering up warm, it will produce perspiration, and  
subdue these affections at once.

PRICE \$1.00.

**Tonic Vermifuge.**

WORMS IN CHILDREN. Of all diseases to which  
children are exposed, none are so fatal to them as  
Worms. Unfortunately, children are seldom free from  
them, and as they imitate the symptoms of almost every  
other complaint, they often produce alarming effects  
without being suspected. They are not only a cause of  
disease themselves, but by their irritation aggravate all  
other diseases, wandering from one part of the body to  
another, winding themselves up into large balls, and ob-  
structing the bowels, and frequently the throat, causing  
convulsions, and too often death. The desired remedy  
will be found in Dr. JAYNE'S TONIC VERMIFUGE,  
which will very soon destroy the worms, and invigorate  
the powers of digestion so as to prevent a return of  
them. PRICE 50 cents.

**JAYNE'S CARMINATIVE BALSAM.**

This is one of the most efficient, pleasant and safe  
compositions ever offered to the public, for the cure of  
the various derangements of the Stomach and Bowels,  
and the only article worthy of the best confidence for  
curing COLIC, INFLAMMATION OF THE STOMACH,  
PLAINT; and in the above and following diseases, it  
really acts like a charm, viz:

Dyspepsia, Diarrhea or Looseness, Cholera Morbus,  
Summer Complaint, Cholera Gravidarum, Spasmodic  
Stomach, Sick and Nervous Headache, Heartburn, Water-brash,  
Pain or Sickness of the Stomach, Vomiting, Spitting up  
of food after eating, and when it passes through  
the body unchanged; Want of Appetite, Flatulency,  
and Jaundice to Sleep, Nervous Tremors and Twitch-  
ings, Spasms, Faintings, Melancholy and Looseness  
of the Spleen, Freeling and Craving of Infants, and for all  
Bowel Affections and Nervous Diseases.

PRICE 50 cents.

**Hair Tonic.**

NO EXCUSE FOR A BALD HEAD. Since the im-  
portant discovery of Dr. JAYNE'S HAIR TONIC, every  
one may, if they choose, preserve their hair from falling  
out, or if already bald, may, with certainty, have their  
hair restored again by a faithful and persevering ap-  
plication of this valuable HAIR TONIC.

Please to read without prejudice the following com-  
munication, which, in addition to hundreds of others  
equally respectable, should remove the doubts of every  
reasonable person of the uniform and singular efficacy  
of JAYNE'S HAIR TONIC.

HAMILTON, Feb. 15, 1840.  
Dr. D. Jayne—Dear Sir: I cannot say my hair is re-  
stored, but I can say that it appears to be in rapid pro-  
cess of restoration, and is coming sensibly back. I had  
not finished the first bottle, before a decided  
change was manifest over the bald part of the head, to  
which it was applied. A new growth of fine glossy  
hair, much like that of an infant, appeared, and has  
continued to increase, and I have had it cut two or three  
times. I have recently commenced upon the third bot-  
tle, but have been a good deal irregular in the use of  
the Tonic from the first, and from this cause I apprehend  
the effect is at present less than it otherwise would  
have been.

I began the use of the Tonic with little or no faith  
that it would ever be successful on my head, though I  
felt entire confidence in your statements as to what it  
had done for others; and I was much surprised as de-  
clared when I saw the effect. You recollect the ap-  
pearance of my head when in your office. I assure you  
the hair has been nearly, if not quite, an inch long at  
the time I have had it cut, on those parts which were  
nearly destitute of any when you saw me. It was, how-  
ever, very fine, though quite thick. I am flushed with  
triumph, and hope of final success, in the diligent use  
of your Tonic, which, amidst all the hair humbugs which  
have been advertised in the papers, I am constrained to  
believe is what it claims to be, and that it will make  
the hair grow, and no mistake, at least on some heads.

**Jayne's Sanative Pills.**

These Pills are an excellent, mild and safe purge at  
all times, and are exceedingly useful in Dyspepsia and  
obstructions of the Liver. Persons taking them must  
drink as usual, without fear of injury, and what is  
of infinite advantage, making the use of mercurial pre-  
parations, so frequently used in derangements of the  
stomach and liver, unnecessary.

These Pills may be taken at all times, and are benefi-  
cial in nearly all diseases. They have long been a fa-  
vorite prescription of the proprietor for all obstructions of  
the Liver, Spleen, Kidneys, Uterus, and all other organs  
of the body—Inflammatory, Intermittent, Remittent,  
Bilious, and every other form of Fever—Jaundice and  
Liver Complaint. For Dyspepsia they are really an in-  
valuable article, gradually changing the vitiated secre-  
tions of the stomach, and producing healthy action in  
that important organ. They are also very valuable in dis-  
eases of the Skin, and for what is commonly called "im-  
purity of the blood," also for Female Complaints, Con-  
sumption, &c. &c. and in fact, every disease where an  
Aperient, Alternative or Purgative medicine is required.

Four fifths of the numerous and distressing cases  
of DYSPEPSIA POSITIVELY CAN BE CURED by a  
persevering use of this valuable SANATIVE.

They are expressly prepared to be used as an Aper-  
ient, when purging is necessary, while using his Expec-  
torant, and for the removal of obstructions in the Liver,  
which are often attendant on some of the diseases of  
the Breast.

**PAGE'S VEGETABLE SYRUP**  
**FOR FEMALES, ENCEINTE.**

THE following gentlemen are the authorized  
Agents for selling the above mentioned valuable  
medicine, a medicine worthy the confidence of  
the public, and should be used by every female about  
to become a mother. It is invaluable in relieving  
the pains of Lying-in women, as has been proved by  
hundreds of ladies who have used it, and by many  
physicians who prescribe it in their practice. There  
is nothing deleterious in its composition, and the  
most delicate female in any condition may take it  
with perfect safety. The price of it in nearly  
all cases where used is more than saved by the moth-  
er getting up, and recovering her strength so as to  
be able to dismiss her nurse one to two weeks sooner  
than in ordinary cases. All persons wishing for fur-  
ther information respecting it, are referred to a pam-  
phlet of a dozen or more pages accompanying the  
medicine (which may be had gratis of any agent),  
containing some general remarks upon the subject,  
proper and important to be read by all females, also  
several letters from physicians who have prescribed  
it, and from other gentlemen whose wives have used  
it.

**WRIGHT'S**  
**INDIAN VEGETABLE PILLS**

Of the North American College of Health.  
NATURAL PRINCIPLES. It is written in the  
book of nature and common sense, that the  
natural vegetable productions of every country are,  
if properly applied, amply sufficient for the cure of  
every malady incident to that climate.

WRIGHT'S INDIAN VEGETABLE PILLS  
are composed of plants which grow spontaneously  
on our own soil, and are therefore better adapted  
to our constitutions than medicines concocted from  
foreign drugs, however well they may be compounded;  
and as they are founded upon the principle  
that the human body is in truth subject to

ONLY ONE DISEASE,  
viz., Corrupt Humors, or in other words, Impurity,  
and cure every form of this one disease, on natural  
principles, that is, by Cleansing and Purifying the  
Body, it must be plain to every reflecting mind that  
a perseverance in the use of the medicine, accord-  
ing to directions, will be absolutely certain to drive  
every malady from the body.

When we wish to restore a swamp or morass to  
fertility, do we not drain it of the superabundant  
water? In like manner, if we would restore the  
body to health, we must cleanse it of impurity.

WRIGHT'S INDIAN VEGETABLE PILLS  
will be found a delightful medicine for carrying out  
this grand purifying principle, because they expel  
all morbid and corrupt humors, the cause of disease,  
in an easy and natural manner; and while they  
every day

GIVE EASE AND PLEASURE,  
disease of every name is rapidly driven from the  
body.

**Beware of Counterfeits!**  
The patrons of Wright's Indian Vegetable Pills  
are cautioned against being deceived by medicine  
purporting to be Indian Pills, manufactured by one  
A. L. Norcross who is traveling about the country,  
endeavoring by every artifice to palm off his worthless  
trash for the genuine.

It should be remembered that all genuine medi-  
cine has the title expressed in full on the sides of  
the boxes thus:

**WRIGHT'S INDIAN VEGETABLE PILLS**  
**(INDIAN PURGATIVE.)**  
Of the North American College of Health.

And that all Traveling Agents are provided with a  
Certificate of Agency; signed by William Wright,  
Vice President of the N. A. Coll. of Health. All  
travelers, therefore, who offer Indian Pills for sale,  
and cannot show a certificate of Agency, as above  
described, will be known as wicked impostors.

Purchasers will further remember that the coun-  
terfeits in the hope of evading the law, have  
omitted the name of "Wright," and substituted  
some word in its place; that the medicine must  
have "WRIGHT'S INDIAN VEGETABLE  
PILLS" on the sides of the boxes; and that all  
with the above omission are positively spurious.

And also around the border of the label, will be  
found in small type, "Entered according to the Act  
of Congress in the year 1840, by Wm. Wright in  
the Clerk's Office of the District Court, of the Eastern  
District of Pennsylvania."

It will further be observed that the printed di-  
rections for using the medicine, which accompanies  
each box, are also entered according to Act of Con-  
gress; and the same form will be found at the bot-  
tom of the first page.

The public will also remember, that all who sell  
the genuine Indian Vegetable Pills are provided  
with a certificate of Agency, signed by  
WILLIAM WRIGHT, VICE PRESIDENT  
Of the North American College of Health

Thus it will be seen, that a trifling attention  
on the part of the purchaser to the above particulars,  
will put an effectual stop to this wholesale robbery,  
and drive it, it is hoped, all deprecators upon society  
to an honest calling.

The following highly respectable persons have  
been appointed agents for the sale of the above in  
valuable medicine.

**PATENT MILL WHEELS.**

THE Subscriber having for a long time given  
his attention to the construction and operation  
of Water Wheels, has finally succeeded in the in-  
vention of two kinds of Wheels for which he has  
received Letters Patent from the Government of  
the United States.

These Wheels are simple in their construction,  
cheap and durable, are easily put in operation, and  
are not liable like most other wheels to get out of  
order, they are not obstructed by back water, when  
the head is not diminished thereby; and the same  
power and speed is obtained, with about one half  
the quantity of water usually applied to wheels  
now in general use.

A great number of these Wheels are now in op-  
eration and give in all cases entire satisfaction, and  
for further information respecting them the follow-  
ing gentlemen are referred to, all of whom have  
some of said wheels in operation: Jacob Drum-  
mond, James H. Fiske, Amos Davis and Leonard  
Maro, Esqrs. Messrs. Fiske & Norcross, Foster  
& Gilman, S. P. & H. Strickland, W. T. & L.  
Peirce & Co. Bangor; Hon. J. S. Little, Portland;  
Hon. John Otis, Hallowell; F. A. Butman, Esquire,  
Dixmont; Robert Treat Geo. A. Peirce, Esqrs.,  
Frankfort; Daniel Dennett, Esq. Milice; Col. Henry  
Orne, Milton; Messrs. Fiske & Bridge, Milford; Jm  
Wadleigh, Esq. Oldtown; Capt. R. Fitz, Debbam;  
John Black and John M. Hale, Esqrs. Ellsworth;  
Messrs. A. Campbell & Co. Cherryfield; Daniel  
Harwood, Esq. Machias; Levi L. Lowell, Falls.

The above wheels are manufactured and for sale  
at the Iron Foundries of Messrs. HINCKLEY &  
EGERY and FRANKLIN MUZZY & Co in this  
city, who are furnished with a great variety of pa-  
tents, so that Wheels of any particular description,  
or adapted to any given head of water, can be fur-  
nished at short notice. They are also authorized  
to dispose of the Patent Right for the same.

**LOZENGES! LOZENGES!**  
**FALES' Cough, Warm, Headache, and Di-**  
**arrhea or Dysentery. LOZENGES are safe, cer-**  
**tain and agreeable remedies for the diseases for**  
**which they are recommended.**

Numerous speedy and surprising cures have been  
effected by their use, hence their popularity.

Dym's Oracle of Health, (Philadelphia) says  
that Fales' Medicated Lozenges are considerably  
superior to those who have used them, to be far superior to  
Sherman's or any other introduced into that market.

**THE COUGH LOZENGES**  
Are beneficial in all cases of common colds, hop-  
ing cough, asthmatic affections, inflammation of  
the throat and lungs; they are also particularly  
beneficial for the croup, and a very good substitute  
for the celebrated Hise Syrup, Cough Candy,  
Quincy Coughs, Pulmonary Syrup, &c.

**THE WORM LOZENGES**  
Are a safe and sure remedy for Worms. Ten or  
three is a dose for very small children, and five or  
six for larger ones.

**THE DYSENTERY LOZENGES**  
Are a certain and agreeable remedy for Dysen-  
tery, Diarrhea and bowel complaints of children—  
Full directions as to diet and manner of taking  
them, accompany each box.

**THE HEADACHE OR CAMBRIO**  
Lozenges are beneficial in cases of nervous head-  
ache, in febrile affections of a typhus character.  
They are useful in Rheumatism and peripneumony;  
also in eruptive diseases, to favor the eruption or  
bring it back when it has suddenly receded from  
the skin, as sometimes happens in measles and  
small pox.

the city.

**FALES' CYPRIAN HAIR TONIC.**  
FOR THE GROWTH, PRESERVATION AND RESTO-  
RATION OF THE HAIR.

No matter how bald a person may be, a growth  
of hair will be produced, and as naturally as the  
herbage grows on the plain, or the lily in the  
valley. This tonic is warranted to cleanse the hair  
scalp, and every other accumulative sub-  
stance from the scalp, and falling off—the tonic  
stance. As your hair is dry and falling off—the tonic  
will moisten and fix it strongly in the head. It is  
hair thin or your head bald—the tonic is warrant-  
ed to satisfy the largest desires in thickening the  
hair in the first case, and covering the Bald Head  
with natural hair in the second.

It is composed of those remedial agents that re-  
store the skin at once to a sound and healthy con-  
dition: when thus restored, you will soon discover on  
the head a short, soft, and beautiful growth of  
the hair gradually increasing in length, until it be-  
comes as your other hair was before you began to  
lose it.

The question is often asked, from what is the word  
Cyprion derived? Answer—From the word Cyprion, the  
name of a beautiful island in the Mediterranean Sea—  
The inhabitants of that far famed island, are as well  
known for their fine glossy hair, as any other people  
living here. It is known, however, that any other people  
except those of Cyprion, have never used this Tonic.

For sale, wholesale and retail, by N. B. FOL-  
SON, Jr., and at retail by the other Druggists in  
the city.
